Terracon Project No. 06117009T

Dear Mr. Thompson:

Terracon Consultants, Inc. (Terracon) is pleased to submit the enclosed Phase I Environmental Site Assessment (ESA) report for the above-referenced site. This assessment was performed in accordance with Terracon Proposal No. P06130336 dated May 30, 2013.

We appreciate the opportunity to be of service to you on this project. In addition to Phase I services, our professionals provide geotechnical, environmental, construction materials, and facilities services on a wide variety of projects locally, regionally and nationally. For more detailed information on all of Terracon's services please visit our website at www.terracon.com. If there are any questions regarding this report or if we may be of further assistance, please do not hesitate to contact us.

Sincerely,
Terracon Consultants, Inc.

EXECUTIVE SUMMARY

This Phase I Environmental Site Assessment (ESA) was performed in accordance with Terracon proposal P06130336 dated May 30, 2013 and consistent with the procedures included in ASTM E 1527-05, *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process*. The United States Environmental Protection Agency (EPA) awarded the City of Coralville (City) EPA Brownfields Assessment Grants: $200,000 for hazardous substances and $183,000 for petroleum. The EPA Brownfield Project Officer, determined the Property at 900 1st Avenue in Coralville, Iowa to be eligible for assessment under the Brownfield Petroleum Substances Grant, BF 97720901, and the Brownfield Hazardous Substances Grant, BF 97721001, on June 25, 2013. The ESA was conducted under the supervision or responsible charge of Kirk R. Johnson, PG, Environmental Professional. Daniel M. Green, CGP performed the site reconnaissance on August 23, 2013.

Findings

A cursory summary of findings is provided below. It should be recognized that details were not included or fully developed in this section, and the report must be read in its entirety for a comprehensive understanding of the items contained herein.

Site Description and Use

At the time of the site reconnaissance on August 23, 2013, Terracon observed a 0.72 acre area of land located at 900 1st Avenue in Coralville, Iowa. The site is currently developed with a 4,360 square-foot (SF) commercial structure currently occupied by the Iowa City/Coralville Welcome Center.

Historical Information

Based on a review of the historical information, the site was first developed sometime in the 1950s for commercial use. The site was subsequently developed into its current state in 1979 for use as a restaurant until 2006 when the Iowa City/Coralville Welcome Center began the current operations.

The following on-site recognized environmental condition (REC) was identified during the historical city directories review:

- 900 1st Avenue: Custom Cycle Design (1974)

The following off-site RECs were identified during the historical city directories review:

- 912 1st Avenue: William Bros Pipe Line Co. (1979-1999), Magellan Pipeline Co (2006-2012)

- 906 1st Avenue: Skelly Transport service oil (1961), Wilson CH Transport Co. (1961-1969), Dahlen Transport of Iowa (1961), Great Lakes Pipe Line Co. (1961-1964), Williams Bros. Pipe Line Co. gas (1969)
- 904 1st Avenue: Wilson Transport Co. garage (1961-1974)
- 822 1st Avenue: Kum & Go, gas station (2010-1998), Quiktrip (1998-1982), Coral 66, gas station (1982-1972), Marv's 66 Service, gas station (1972)
- 222 West 9th Street: Herman Brothers Trucking (1980-1970)

Records Review

The EDR report identified two CERCLIS NFRAP facility, one RCRA-CESQG facility, 10 LUST Facilities, and 40 BROWNFIELDS sites within the specified search radii. Terracon reviewed information regarding the former Country Kitchen site found on the Iowa Department of Natural Resources (IDNR) contaminated sites database. Terracon reviewed a groundwater sampling report dated March 28, 2007 prepared by Terracon Consultants, Inc. Due to the historic presence of contamination on the site above IDNR SWSs and the subsequent determination from the IDNR indicating that no further investigation was required, this finding constitutes a Historic REC (HREC).

The following off-site RECs were identified during the records review:

- Magellan Pipeline Co. – Iowa City Terminal is located at 921 1st Avenue. The EDR report lists the facility as a CERCLIS-NFRAP and RECRA-SQG facility.
- Kum & Go #201/Quiktrip Corp Store 553. The EDR report lists the Kum & Go #201 as a LUST, UST and FINANCIAL ASSURANCE facility.

Site Reconnaissance

Based on the site reconnaissance, RECs were not identified associated with the current on-site operations.

Adjoining Properties

Information regarding Magellan Pipeline and Kum and Go is further discussed in Section 4.1 of this report.

Conclusions

We have performed a Phase I ESA consistent with the procedures included in ASTM Practice E 1527-05 at 900 1st Avenue, Coralville, Johnson County, Iowa, the site. The following RECs were identified in connection with the site.

- Historic use of the site as a motorcycle shop
- Historic and current use of the property to the north for bulk petroleum storage
- Historic and current use of the property to the south as a filling station

- Historic use of the property to the west as a trucking operation

Recommendations

Based on the scope of services, limitations, and findings of this assessment, Terracon recommends a Phase II ESA to evaluate potential onsite soil and groundwater impacts related to the offsite RECs identified in this Phase I ESA.

PHASE I ENVIRONMENTAL SITE ASSESSMENT
900 1ST AVENUE PHASE I ESA
900 1ST AVENUE
CORALVILLE, JOHNSON COUNTY, IOWA

Terracon Project No. 06117009T
September 11, 2013

1.0 INTRODUCTION

1.1 Site Description

Site Name	900 1st Avenue
Site Location/Address	900 1st Avenue, Coralville, Johnson County, Iowa
Land Area	Approximately 0.72 acres
Site Improvements	At the time of the site reconnaissance on August 23, 2013, Terracon observed a 0.72 acre area of land located at 900 1st Avenue in Coralville, Iowa. The site is currently developed with a 4,360 square-foot (SF) commercial structure.

The site location is depicted on Exhibit 1 of Appendix A, which was reproduced from a portion of the USGS 7.5-minute series topographic map. A Site Map of the site and adjoining properties is included as Exhibit 2 of Appendix A. Acronyms and terms used in this report are described in Appendix B.

The United States Environmental Protection Agency (EPA) awarded the City of Coralville (City) EPA Brownfields Assessment Grants: $200,000 for hazardous substances and $183,000 for petroleum. The EPA Brownfield Project Officer, determined the Property at 900 1st Avenue located in Coralville, Iowa to be eligible for assessment under the Brownfield Petroleum Substances Grant, BF 97720901, and the Brownfield Hazardous Substances Grant, BF 97721001, on June 25, 2013. The Brownfields Assessment Grants help address the adverse impacts associated with a number of brownfield properties located in Coralville, Iowa.

1.2 Scope of Services

This Phase I ESA was performed in accordance with Terracon Proposal No. P06130336 dated May 30, 2013, and was conducted consistent with the procedures included in ASTM E 1527-05, *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process*. The purpose of this ESA was to assist the client in developing information to identify Recognized Environmental Conditions (RECs) in connection with the site as reflected by the scope of this report. This purpose was undertaken through user-provided information, a

regulatory database review, historical and physical records review, interviews, including local government inquiries, as applicable, user-provided information, and a visual noninvasive reconnaissance of the site and adjoining properties. Limitations, ASTM deviations, and significant data gaps (if identified) are noted in the applicable sections of the report.

As requested by the client, the following additional services were performed:

1.3 Standard of Care

This ESA was performed in accordance with generally accepted practices of this profession, undertaken in similar studies at the same time and in the same geographical area. We have endeavored to meet this standard of care, but may be limited by conditions encountered during performance, a client-driven scope of work, or inability to review information not received by the report date. Where appropriate, these limitations are discussed in the text of the report, and an evaluation of their significance with respect to our findings has been conducted.

Phase I ESAs, such as the one performed at this site, are of limited scope, are noninvasive, and cannot eliminate the potential that hazardous, toxic, or petroleum substances are present or have been released at the site beyond what is identified by the limited scope of this ESA. In conducting the limited scope of services described herein, certain sources of information and public records were not reviewed. It should be recognized that environmental concerns may be documented in public records that were not reviewed. No ESA can wholly eliminate uncertainty regarding the potential for RECs in connection with a property. Performance of this practice is intended to reduce, but not eliminate, uncertainty regarding the potential for RECs. No warranties, express or implied, are intended or made. The limitations herein must be considered when the user of this report formulates opinions as to risks associated with the site or otherwise uses the report for any other purpose. These risks may be further evaluated – but not eliminated – through additional research or assessment. We will, upon request, advise you of additional research or assessment options that may be available and associated costs.

1.4 Additional Scope Limitations, ASTM Deviations and Significant Data Gaps

Based upon the agreed-on scope of services, this ESA did not include subsurface or other invasive assessments, business environmental risk evaluations, or other services not particularly identified and discussed herein, including an evaluation of vapor encroachment conditions. Credentials of the company (Statement of Qualifications) have not been included in this report but are available upon request. Pertinent documents are referred to in the text of this report, and a separate reference section has not been included. Reasonable attempts were made to obtain information within the scope and time constraints set forth by the client; however, in some instances, information requested is not, or was not, received by the issuance date of the report. Information obtained for this ESA was received from several sources that we believe to be reliable; nonetheless, the authenticity or reliability of these sources cannot and is not warranted hereunder.

An evaluation of the significance of these limitations and missing information with respect to our findings has been conducted, and where appropriate, significant data gaps are identified and discussed in the text of the report. However, it should be recognized that an evaluation of significant data gaps is based on the information available at the time of report issuance, and an evaluation of information received after the report issuance date may result in an alteration of our conclusions, recommendations, or opinions. We have no obligation to provide information obtained or discovered by us after the issuance date of the report, or to perform any additional services, regardless of whether the information would affect any conclusions, recommendations, or opinions in the report. This disclaimer specifically applies to any information that has not been provided by the client.

This report represents our service to you as of the report date and constitutes our final document; its text may not be altered after final issuance. Findings in this report are based upon the site's current utilization, information derived from the most recent reconnaissance and from other activities described herein; such information is subject to change. Certain indicators of the presence of hazardous substances or petroleum products may have been latent, inaccessible, unobservable, or not present during the most recent reconnaissance and may subsequently become observable (such as after site renovation or development). Further, these services are not to be construed as legal interpretation or advice.

1.5 Reliance

The City is the principal end user of this information. Although the report is available for review by the public, further reliance by others is beyond the scope of the grant and EPA funding.

Reliance on the ESA by the client and all authorized parties will be subject to the terms, conditions and limitations stated in the proposal, ESA report, and Terracon's Agreement. The limitation of liability defined in the Agreement is the aggregate limit of Terracon's liability to the client and all relying parties.

Continued viability of this report is subject to ASTM E 1527-05 Sections 4.6 and 4.8. If the ESA will be used by a different user (third party) than the user for whom the ESA was originally prepared, the third party must also satisfy the user's responsibilities in Section 6 of ASTM E 1527-05.

1.6 Client Provided Information

Prior to the site visit, Mr. Charlie Nichols, client's representative, was asked to provide the following user questionnaire information as described in ASTM E1527-05 Section 6.

Client Questionnaire Responses

Client Questionnaire Item	Client Did Not Respond	Client's Response	
		Yes	No
Specialized Knowledge or Experience that is material to a REC in connection with the site.			X
Actual Knowledge of Environmental Liens or Activity Use Limitations (AULs) that may encumber the site.		X	
Actual Knowledge of a Significantly Lower Purchase Price because of hazardous substances or petroleum products.			X
Commonly Known or Reasonably Ascertainable Information that is material to a REC in connection with the site.			X
Obvious Indicators of Contamination at the site.			X

Terracon's consideration of the client provided information did not identify RECs. Mr. Nichols stated that he was aware of a City of Coralville ordinance restricting the placement of private drinking water wells within the City of Coralville city limits. A copy of the questionnaire is included in Appendix C.

2.0 PHYSICAL SETTING

Physical Setting Information		Source
Topography (Refer to Appendix A for an excerpt of the Topographic Map)		
Site Elevation	Approximately 700 feet (NGVD)	USGS Topographic Map, Iowa City West Quadrangle, published 1994
Surface Runoff/ Topographic Gradient	Very gently sloping toward the west-southwest based on site observations	
Closest Surface Water	Small unnamed tributary of the Iowa River, approximately 1,000 feet to the west of the site.	
Soil Characteristics		
Soil Type	Fayette Series	Soil Survey Staff, Natural Resources Conservation Service, United States Department of Agriculture. Web Soil Survey. Available online at http://websoilsurvey.nrcs.usda.gov/ accessed August 29, 2013.
Description	The Fayette series consists of very deep, well drained soils formed in loess. These soils are on convex crests, interfluves and side slopes on uplands and on treads and risers on high stream terraces. Slope ranges	

Physical Setting Information		Source
	from 0 to 60 percent. Well drained; saturation does not occur within a depth of 1.8 meters during the wettest periods of normal years. Saturated hydraulic conductivity is moderately high.	
Geology/Hydrogeology		
Formation	Coralville Formation	"Iowa's Geological Past" by Wayne I. Anderson published by University of Iowa Press, 1998
Description	Part of the Middle Devonian Series of the Paleozoic era. A variety of carbonates (limestone and dolomites), including fossiliferous units and corals and stromatoporoid biostromes. Laminated, brecciated, and evaporitic units overlie fossiliferous limestones. Landforms composed primarily of glacial drift or alluvial deposits.	
Estimated Depth to First Occurrence of Groundwater	15 to 20 feet below ground surface (bgs)	Terracon drilling experience in the area.
*Hydrogeologic Gradient	Not known - may be inferred to be parallel to topographic gradient (primarily to the west-southwest).	

* The groundwater flow direction and the depth to shallow, unconfined groundwater, if present, would likely vary depending upon seasonal variations in rainfall and other hydrogeological features. Without the benefit of on-site groundwater monitoring wells surveyed to a datum, groundwater depth and flow direction beneath the site cannot be directly ascertained.

3.0 HISTORICAL USE INFORMATION

Terracon reviewed the following historical sources for indications of RECs. A summary of the historical review is included at the end of the Historical Use Information section. Copies of selected historical documents are included in Appendix C.

3.1 Historical Topographic Maps

Readily available historical USGS topographic maps were reviewed to evaluate land development in connection with the site. Reviewed historical topographic maps are summarized below.

- Iowa City, Iowa, published 1891 (1:62,500)
- Fairfax, Iowa, published 1903 (1:125,000)
- Iowa City, Iowa, published 1938 (1:62,500)
- Iowa City West, Iowa, published 1965 (1:24,000)

- Iowa City West, Iowa, published 1983 photorevised 1965 (1:24,000)
- Iowa City West, Iowa, published 1994 (1:24,000)

Historical Topographic Maps

Direction	Description
Site	1891, 1903, and 1938: Scale is too large to determine significant features. 1965, 1983, and 1994: Site appears to be developed with two structures.
North	1891, 1903, and 1938: Scale is too large to determine significant features. 1965: Appears to be developed with two apparent commercial structures and associated access roads. Farther to the north is a major road with associated on/off-ramps. 1983 and 1994: Area appears to be relatively unchanged from previous maps, except an apparent above ground storage tank is also present to the north.
East	1891, 1903, and 1938: Scale is too large to determine significant features. 1965: Appears to be developed with a major road, followed by a few scattered structures. 1983 and 1994: Appears to be developed with a road, followed by several apparent commercial structures and associated roads.
South	1891, 1903, and 1938: Scale is too large to determine significant features. 1965: Appears to be developed with a road, followed by several apparent residential structures. 1983 and 1994: Appears to be developed with a road, followed by mixed residential and commercial development.
West	1891, 1903, and 1938: Scale is too large to determine significant features. 1965, 1983, and 1994: Appears to be developed with a few apparent commercial structures, followed by a large apparent tank farm, consisting of several above ground storage tanks.

Information regarding the above ground storage tanks depicted to the west of the site in the 1965, 1983, and 1994 topographic maps is discussed in section 4.1 of this report.

3.2 Historical Aerial Photographs

Selected historical aerial photographs were reviewed at approximately 10 to 15 year intervals, if readily available, to obtain information concerning the history of development on and near the site. Evaluation of these aerials may be limited by a photo's quality and scale. Selected photographs are summarized below.

- IGMS: 1930s, 1950s, 1960s, 1970s, 1980s, 1990s, 2002, 2006, and 2010

Historical Aerial Photographs

Direction	Description
Site	1930s: Appears to be structurally undeveloped agricultural land. 1950s, 1960s, and 1970s: Site appears to be structurally developed with two apparent commercial structures. 1980s, 1990s, 2002, 2006, and 2010: Site appears to be developed with a single apparent commercial structure.
North	1930s: Appears to be structurally undeveloped agricultural land. 1950s: Appears to be developed with an apparent farmstead. 1960s, 1970s, 1980s, 1990s, 2002, 2006, and 2010: Appears to be developed with three scattered apparent commercial structures and associated parking areas.
East	1930s, 1950s, and 1960s: Appears to be developed with a road, followed by structurally undeveloped agricultural land. 1970s: Appears to be developed with a road, followed by a single apparent commercial structure and associated parking area. 1980s, 1990s, and 2002: Appears to be developed with a road, followed by several apparent commercial structures. 2006 and 2010: Appears to be developed with a road, followed by a single apparent commercial structure. To the southeast are several apparent commercial structures.
South	1930s: Appears to be structurally undeveloped agricultural land, followed by two apparent farmsteads. 1950s and 1960s: Appears to be developed with a road, followed by several apparent residential structures. 1970s and 1980s: Appears to be developed with mixed residential and commercial development. 1990s, 2002, 2006, and 2010: Appears to be developed with several apparent commercial structures.
West	1930s and 1950s: Appears to be structurally undeveloped agricultural land. 1960s, 1970s, 1980s, 1990s, 2002, 2006, and 2010: Appears to be developed with commercial structures. Farther to the west-southwest are several apparent storage tanks.

Information regarding the storage tanks depicted to the west-southwest of the site is discussed in section 4.1 of this report.

3.3 Historical City Directories

The Polk city directories used in this study were made available through Coralville Public Library (selected years reviewed: 1959-2011) and were reviewed at approximate five-year intervals, if readily available. Because these references are copyright protected, reproductions are not provided in this report. The current street address for the site was identified as 900 1st Avenue.

Historical City Directories

Direction	Description
Site	900 1st Avenue: Custom Cycle Design (1974), Marc's Big Boy (1979-1989), Country Kitchen (1994-1999), Iowa City-Coralville Visitors convention info bureau (2006-2012)

The following on-site REC was identified during the historical city directories review:

- 900 1st Avenue: Custom Cycle Design (1974)

The following off-site RECs were identified during the historical city directories review:

- 912 1st Avenue: William Bros Pipe Line Co. (1979-1999), Magellan Pipeline Co (2006-2012)
- 906 1st Avenue: Skelly Transport service oil (1961), Wilson CH Transport Co. (1961-1969), Dahlen Transport of Iowa (1961), Great Lakes Pipe Line Co. (1961-1964), Williams Bros. Pipe Line Co. gas (1969)
- 904 1st Avenue: Wilson Transport Co. garage (1961-1974)
- 822 1st Avenue: Kum & Go, gas station (2010-1998), Quiktrip (1998-1982), Coral 66, gas station (1982-1972), Marv's 66 Service, gas station (1972)
- 222 West 9th Street: Herman Brothers Trucking (1980-1970)

Facilities such as the ones listed above typically handle/store hazardous chemicals and petroleum products. Due to the unknown handling/storage practices of hazardous chemicals associated with operations such as the ones listed above, these facilities constitute RECs for the site.

3.4 Historical Fire Insurance Maps

Historical fire insurance maps produced by the Sanborn Map Company were requested from EDR to evaluate past uses and relevant characteristics of the site and surrounding properties. Based upon inquiries to the above-listed Sanborn provider, Sanborn Maps were not available for the site.

3.5 Site Ownership

Based on a review of information obtained from Johnson County assessor's records, the current site owner is the City of Coralville.

3.6 Title Search

At the direction of the client, a title search was included as part of the scope of services.

County Deed Records were reviewed by Texas Environmental Research of Rockwall, Texas to obtain a chain-of-title for the site. Ownership records were reviewed back to 1936. The title information is included in Appendix C.

Based on a review of the title provider's research, the current site owner is the City of Coralville, who obtained title on September 30, 2004, from State Central Bank. Previous site owners include various private individuals.

A utility easement was identified on the site during the title search by the abstractor, however the abstractor did not identify environmentally significant easements (i.e. pipelines, mineral leases, etc.) during the title search.

3.7 Environmental Liens

At the direction of the client, performance of a review of these records was included as part of the scope of services by engaging Texas Environmental Research of Rockwall, Texas. Based on a review of the title provider's research, environmental lien records were not identified.

3.8 Historical and Site Interviews

The following individuals were interviewed regarding the current and historical use of the site.

Interviewees

Interviewer	Interviewee/Phone #	Title	Date/Time
Mr. Daniel M. Green	Mr. Nick Kaeding	Occupant – Director of Finance, Iowa City/Coralville Welcome Center	August 23, 2013 / 3:00 pm

At the time of site reconnaissance on August 23, 2013, Terracon interviewed Mr. Nick Kaeding regarding the current uses of the site. Mr. Kaeding is currently the Director of Finance for the Iowa City/Coralville Welcome Center. According to Mr. Kaeding the site operates as the Iowa

City/Coralville Welcome Center and has operated as such since approximately 2006. Mr. Kaeding stated that prior to 2006 the site was occupied by two restaurants.

3.9 Prior Report Review

Previous reports for the site were not provided by the client to Terracon for review.

3.10 Historical Use Information Summary

Based on a review of the historical information, the site was first developed sometime in the 1950s for commercial use. The site was subsequently developed into its current state in 1979 for use as a restaurant until 2006 when the Iowa City/Coralville Welcome Center began the current operations.

The following on-site REC was identified during the historical city directories review:

- 900 1st Avenue: Custom Cycle Design (1974)

The following off-site RECs were identified during the historical city directories review:

- 912 1st Avenue: William Bros Pipe Line Co. (1979-1999), Magellan Pipeline Co (2006-2012)
- 906 1st Avenue: Skelly Transport service oil (1961), Wilson CH Transport Co. (1961-1969), Dahlen Transport of Iowa (1961), Great Lakes Pipe Line Co. (1961-1964), Williams Bros. Pipe Line Co. gas (1969)
- 904 1st Avenue: Wilson Transport Co. garage (1961-1974)
- 822 1st Avenue: Kum & Go, gas station (2010-1998), Quiktrip (1998-1982), Coral 66, gas station (1982-1972), Marv's 66 Service, gas station (1972)
- 222 West 9th Street: Herman Brothers Trucking (1980-1970)

4.0 RECORDS REVIEW

Regulatory database information was provided by EDR, a contract information services company. The purpose of the records review was to identify RECs in connection with the site. Information in this section is subject to the accuracy of the data provided by the information services company and the date at which the information is updated, and the scope herein did not include confirmation of facilities listed as "unmappable" by regulatory databases.

In some of the following subsections, the words up-gradient, cross-gradient and down-gradient refer to the topographic gradient in relation to the site. As stated previously, the groundwater flow direction and the depth to shallow groundwater, if present, would likely vary depending upon seasonal variations in rainfall and the depth to the soil/bedrock interface. Without the

benefit of on-site groundwater monitoring wells surveyed to a datum, groundwater depth and flow direction beneath the site cannot be directly ascertained.

4.1 Federal and State/Tribal Databases

Listed below are the facility listings identified on federal and state/tribal databases within the ASTM-required search distances from the approximate site boundaries. Database definition, descriptions, and the database search report are included in Appendix D.

Federal Databases

Database	Description	Radius (miles)	Listings
CERCLIS	The CERCLIS database is a compilation of facilities which the EPA has investigated or is currently investigating for a release or threatened release of hazardous substances pursuant to the CERCLA of 1980.	0.5	
CERCLIS / NFRAP	CERCLIS/NFRAP refers to facilities that have been removed and archived from EPA's inventory of CERCLA sites.	0.5	
ERNS	The Emergency Response Notification System (ERNS) is a listing compiled by the EPA on reported releases of petroleum and hazardous substances to the air, soil and/or water.	Site	
IC / EC	A listing of sites with institutional and/or engineering controls in place. IC include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls. EC include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health.	Site	
NPL	The NPL is the EPA's database of uncontrolled or abandoned hazardous waste facilities that have been listed for priority remedial actions under the Superfund Program.	1	
NPL (Delisted)	The NPL (Delisted) refers to facilities that have been removed from the NPL.	0.5	
RCRA CORRACTS/ TSD	The EPA maintains a database of RCRA facilities associated with treatment, storage, and disposal (TSD) of hazardous waste that are undergoing "corrective action." A "corrective action" order is issued when there has been a release of hazardous waste or constituents into the environment from a RCRA facility.	1	
RCRA Generators	The RCRA Generators database, maintained by the EPA, lists facilities that generate hazardous waste as part of their normal business practices. Generators are listed as either	Site and adjoining properties	

Database	Description	Radius (miles)	Listings
	large (LQG), small (SQG), or conditionally exempt (CESQG). LQG produce at least 1000 kg/month of non-acutely hazardous waste or 1 kg/month of acutely hazardous waste. SQG produce 100-1000 kg/month of non-acutely hazardous waste. CESQG are those that generate less than 100 kg/month of non-acutely hazardous waste.		
RCRA Non-CORRACTS/ TSD	The RCRA Non-CORRACTS/TSD Database is a compilation by the EPA of facilities which report storage, transportation, treatment, or disposal of hazardous waste. Unlike the RCRA CORRACTS/TSD database, the RCRA Non-CORRACTS/TSD database does not include RCRA facilities where corrective action is required.	0.5	

State/Tribal Databases

Database	Description	Radius (miles)	Listings
Brownfields	State and/or Tribal listing of Brownfield properties addressed by Cooperative Agreement Recipients or Targeted Brownfields Assessments.	0.5	
IC	Sites currently enrolled in the Land Recycling Program that have institutional controls in place.	Site	
LUST	State and/or Tribal database of leaking underground storage tanks in the state of Iowa.	0.5	
SHWS	The Iowa Department of Natural Resources (DNR) maintains a database of state equivalent CERCLIS facilities in the state of Iowa.	0.5	
SWF/LF	State and/or Tribal database of solid waste facilities located within Iowa. The database information may include the facility name, class, operation type, area, estimated operational life, and owner.	0.5	
UST	State and/or Tribal database of registered storage tanks in the State of Iowa which may include the owner and location of the tanks.	Site and adjoining properties	
VCP	State and/or Tribal facilities included as Voluntary Cleanup Program sites.	0.5	

In addition to the above ASTM-required listings, Terracon reviewed other federal, state, local, and proprietary databases provided by the database firm. A list of the additional reviewed databases is included in the regulatory database report included in Appendix D.

The following table summarizes the site-specific information provided by the database and/or gathered by this office for identified facilities. Facilities are listed in order of proximity to the site. Additional discussion for selected facilities follows the summary table.

Listed Facilities

Facility Name And Location	Estimated Distance/Direction/Gradient	Database Listings
Country Kitchen, Coralville 900 1st Avenue	Site	ALLSITES
Williams Pipe Line Co - Coralville 912 1st Avenue	Adjoining / north / cross-gradient	CERC-NFRAP, RCRA-SQG

Country Kitchen, Coralville

Country Kitchen, Coralville located at 900 1st Avenue is identified by EDR as the subject site. The EDR report lists the site as an ALLSITES facility. According to the EDR report the site has an ID number of 356, with a status of "closed", and is listed under the CERCLIS Pre-remedial program. For additional information regarding this listing please see section 4.2.3 of this report.

Magellan Pipeline Co - Iowa City Terminal

Magellan Pipeline Co. – Iowa City Terminal is located at 921 1st Avenue and is located generally north of the site in a presumed topographically cross-gradient position relative to the site. The EDR report lists the facility as a CERCLIS-NFRAP and RECRA-SQG facility. According to EDR the facility has a site ID of 0700375 and was archived on May 1, 1984. The EDR report lists the facility for the following waste streams: ignitable hazards, benzene, methyl ethyl ketone (MEK), and non-halogenated solvents. According to the EDR report the facility has received five written informal violations. Based on regulatory listing and proximity of this facility to the site this finding constitutes an REC for the site.

Kum & Go #201/Quiktrip Corp Store 553

Kum & Go #201/Quiktrip Corp Store 553 is located at 822 1st Avenue approximately 50 feet south of the site in a presumed topographically cross-gradient position relative to the site. The EDR report lists the Kum & Go #201 as a LUST, UST and FINANCIAL ASSURANCE facility. According to the EDR report Kum & Go #201 has a LUST number of 7LTQ97 for a gasoline and diesel fuel release. A Tier 2 report was accepted and the site was classified "no action required" on September 28, 2000. According to the EDR report three 12,000 gallon gasoline and two 12,000 gallon diesel tanks were installed at the facility in 1983 and are still active. In addition, the EDR report lists one 8,000 gallon E85 tank installed in 2007 and one 8,000 gallon kerosene

tank installed in 1984, both are still currently active at the facility. Based on regulatory listing and proximity to the site this finding constitutes an REC for the site.

Hawk-I Truck Stop

The Hawk-I Truck Stop located at 903 1st Avenue is located approximately 300 feet east of the site in a presumed topographically down-gradient position relative to the site. The EDR report lists the property a US BROWNFIELDS, LUST, UST, and FINACIAL ASSURANCE facility. According to the EDR report the facility has been issued a LUST # of 8LTA41 and is currently classified "No Action Required with Free Product". With the permission of Dan Holderness, City Engineer with the City of Coralville, Terracon reviewed a Limited Site Investigation (LSI) report completed by Terracon on May 21, 2009 for additional information regarding contamination on the Hawk-I Truck Stop property. Figures included in the May 2009 LSI show that contamination is confined to the Hawk-I Truck Stop property and migration is generally toward the east. Based on regulatory status, topographic position relative to the site and review of contamination plume maps this listing does not constitute an REC for the site at this time.

The remaining facilities listed in the database report do not appear to represent RECs to the site at this time based upon regulatory status, apparent topographic gradient, and/or relative distance from the site.

Unmapped facilities are those that do not contain sufficient address or location information to evaluate the facility listing locations relative to the site. The report listed 31 facilities in the unmapped section. Determining the location of unmapped facilities is beyond the scope of this assessment, however none of these facilities were identified as the site or adjacent properties. These facilities are listed in the database report in Appendix D.

4.2 Local Agency Inquiries

4.2.1 Health Department/Environmental Division

The Johnson County Health Department was contacted by e-mail regarding environmental records or information indicating environmental concerns for the site. On August 28, 2013, the Johnson County Health Department responded with well abandonment forms for the a removal of 6 monitoring wells from the site. These wells appear to have been associated with a historic soil and groundwater study performed at the site and discussed in section 4.2.3 of this report.

4.2.2 Fire Department

The Coralville Fire Department was contacted by e-mail regarding environmental records or information indicating environmental concerns for the site. At the issuance of this report a response has not been received from the Coralville Fire Department.

4.2.3 Iowa Department of Natural Resources

The Iowa Department of Natural Resources (IDNR) contaminated sites database, https://programs.iowadnr.gov/contaminatedsites/pages/search.aspx, was accessed on September 6, 2013 for records regarding the site. Terracon reviewed a groundwater sampling report dated March 28, 2007 prepared by Terracon Consultants, Inc. According to the report, previously elevated concentrations of BTEX and TEH constituents in groundwater were present at concentrations below applicable IDNR statewide standards (SWSs) for the most recent round of sampling on March 16, 2007. Subsequent correspondence from the IDNR dated April 4, 2007 addressing the March 16, 2007 sampling event indicated that, based the site's usage at the time, additional investigation was not required. Due to the historic presence of contamination on the site above IDNR SWSs and the subsequent regulatory determination from the IDNR indicating no further investigation, this finding constitutes an Historic REC (HREC).

4.3 Records Review Summary

The EDR report identified two CERCLIS NFRAP facility, one RCRA-CESQG facility, 10 LUST Facilities, and 40 BROWNFIELDS sites within the specified search radii. Terracon reviewed information regarding the former Country Kitchen site found on the Iowa Department of Natural Resources (IDNR) contaminated sites database. Terracon reviewed a groundwater sampling report dated March 28, 2007 prepared by Terracon Consultants, Inc. Due to the historic presence of contamination on the site above IDNR SWSs and the subsequent regulatory determination from the IDNR indicating no further investigation, this finding constitutes an Historic REC (HREC).

The following off-site RECs were identified during the records review:

- Magellan Pipeline Co. – Iowa City Terminal is located at 921 1st Avenue. The EDR report lists the facility as a CERCLIS-NFRAP and RECRA-SQG facility.
- Kum & Go #201/Quiktrip Corp Store 553. The EDR report lists the Kum & Go #201 as a LUST, UST and FINANCIAL ASSURANCE facility.

5.0 SITE RECONNAISSANCE

5.1 General Site Information

Information contained in this section is based on a visual reconnaissance conducted while walking through the site and the accessible interior areas of structures, if any, located on the site. Exhibit 2 in Appendix A is a Site Map of the site. Photo documentation of the site at the time of the visual reconnaissance is provided in Appendix E. Credentials of the individuals planning and conducting the site visit are included in Appendix F.

General Site Information

Site Reconnaissance				
Field Personnel	Daniel M. Green, CGP			
Reconnaissance Date	August 23, 2013			
Weather Conditions	Sunny 80°F			
Site Contact/Title	Nick Kaeding / Director of Finance			
Building Description				
Building Identification	**Building Use**	**Approx. Construction Date**	**Number of Stories**	**Approx. Size (ft²)**
Iowa City/Coralville Welcome Center	Office space	1979	1	4,360
Site Utilities				
Drinking Water	City of Coralville			
Wastewater	City of Coralville			

5.2 Overview of Current Site Occupants and Operations

At the time of August 23, 2013, Terracon observed a 0.72 acre area of land located at 900 1st Avenue in Coralville, Iowa. The site is currently developed with a 4,360 square-foot (SF) commercial structure currently occupied by the Iowa City/Coralville Welcome Center.

5.3 Site Observations

The following table summarizes site observations and interviews. Affirmative responses (designated by an "X") are discussed in more detail following the table.

Site Characteristics

Category	Item or Feature	Observed
Site Operations, Processes, and Equipment	Emergency generators	
	Elevators	
	Air compressors	
	Hydraulic lifts	
	Dry cleaning	
	Photo processing	
	Ventilation hoods and/or incinerators	

Category	Item or Feature	Observed
	Waste treatment systems and/or water treatment systems	
	Heating and/or cooling systems	
	Other processes or equipment	
Aboveground Chemical or Waste Storage	Aboveground storage tanks	
	Drums, barrels and/or containers ≥ 5 gallons	
	MSDS	
Underground Chemical or Waste Storage, Drainage or Collection Systems	Underground storage tanks or ancillary UST equipment	
	Sumps, cisterns, catch basins and/or dry wells	
	Grease traps	
	Septic tanks and/or leach fields	
	Oil/water separators	
	Pipeline markers	
	Interior floor drains	
Electrical Transformers/ PCBs	Transformers and/or capacitors	X
	Other equipment	
Releases or Potential Releases	Stressed vegetation	
	Stained soil	
	Stained pavement or similar surface	
	Leachate and/or waste seeps	
	Trash, debris and/or other waste materials	
	Dumping or disposal areas	
	Construction/demolition debris and/or dumped fill dirt	
	Surface water discoloration, odor, sheen, and/or free floating product	
	Strong, pungent or noxious odors	
	Exterior pipe discharges and/or other effluent discharges	
Other Notable Site Features	Surface water bodies	
	Quarries or pits	
	Wells	

Electrical Transformers/PCBs

Transformers and/or capacitors

During Terracon's site visit, a pad-mounted transformer, owned and serviced by MidAmerican Energy was observed in the northwest corner of the site, however information with regard to PCB content of the transformer fluids was not observed. Some transformers contain mineral oil which may contain PCBs.

MidAmerican Energy maintains responsibility for the transformers, and if the transformers were "PCB contaminated," the utility company is not required to replace the transformer fluids until a release is identified. However, evidence of current or prior release was not observed in the vicinity of the electrical equipment during the site reconnaissance.

5.4 Site Reconnaissance Summary

Based on the site reconnaissance, RECs were not identified associated with the current on-site operations.

6.0 ADJOINING PROPERTY RECONNAISSANCE

Visual observations of adjoining properties (from site boundaries) are summarized below.

Adjoining Properties

Direction	Description
North	Magellan Pipeline.
East	1st Avenue, followed by commercial development.
South	West 9th Street, followed by Kum and Go.
West	Hotel.

Information regarding Magellan Pipeline and Kum and Go is further discussed in section 4.1 of this report.

7.0 ADDITIONAL SERVICES

Per the agreed scope of services specified in the proposal, additional services (e.g. asbestos sampling, lead-based paint sampling, wetlands evaluation, lead in drinking water testing, radon testing, vapor encroachment screening, etc.) were not conducted.

8.0 DECLARATION

I, Kirk R. Johnson, PG, declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in Section 312.10 of 40 CFR 312; and I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the site. I have developed and performed the All Appropriate Inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

APPENDIX B
DESCRIPTION OF TERMS AND ACRONYMS

Description of Selected General Terms and Acronyms

Term/Acronym	*Description*
ACM	Asbestos Containing Material. Asbestos is a naturally occurring mineral, three varieties of which (chrysotile, amosite, crocidolite) have been commonly used as fireproofing or binding agents in construction materials. Exposure to asbestos, as well as ACM, has been documented to cause lung diseases including asbestosis (scarring of the lung), lung cancer and mesothelioma (a cancer of the lung lining). Regulatory agencies have generally defined ACM as a material containing greater that one (1) percent asbestos, however some states (e.g. California) define ACM as materials having 0.1% asbestos. In order to define a homogenous material as non-ACM, a minimum number of samples must be collected from the material dependent upon its type and quantity. Homogenous materials defined as non-ACM must either have 1) no asbestos identified in all of its samples or 2) an identified asbestos concentration below the appropriate regulatory threshold. Asbestos concentrations are generally determined using polarized light microscopy or transmission electron microscopy. Point counting is an analytical method to statistically quantify the percentage of asbestos in a sample. The asbestos component of ACM may either be friable or non-friable. Friable materials, when dry, can be crumbled, pulverized, or reduced to powder by hand pressure and have a higher potential for a fiber release than non-friable ACM. Non-friable ACM are materials that are firmly bound in a matrix by plastic, cement, etc. and, if handled carefully, will not become friable. Federal and state regulations require that either all suspect building materials be presumed ACM or that an asbestos survey be performed prior to renovation, dismantling, demolition, or other activities that may disturb potential ACM. Notifications are required prior to demolition and/or renovation activities that may impact the condition of ACM in a building. ACM removal may be required if the ACM is likely to be disturbed or damaged during the demolition or renovation. Abatement of friable or potentially friable ACM must be performed by a licensed abatement contractor in accordance with state rules and NESHAP. Additionally, OSHA regulations for work classification, worker training and worker protection will apply.
AHERA	Asbestos Hazard Emergency Response Act
AST	Above Ground Storage Tanks. ASTs are generally described as storage tanks less than 10% of which are below ground (i.e., buried). Tanks located in a basement, but not buried, are also considered ASTs. Whether, and the extent to which, an AST is regulated, is determined on a case-by-case basis and depends upon tank size, its contents and the jurisdiction of its location.
BGS	Below Ground Surface
BTEX	Benzene, Toluene, Ethylbenzene, and Xylenes. BTEX are VOC components found in gasoline and commonly used as analytical indicators of a petroleum hydrocarbon release.
CERCLA	Comprehensive Environmental Response, Compensation and Liability Act (a.k.a. Superfund). CERCLA is the federal act that regulates abandoned or uncontrolled hazardous waste sites. Under this Act, joint and several liability may be imposed on potentially responsible parties for cleanup-related costs.
CERCLIS	Comprehensive Environmental Response, Compensation and Liability Information System. An EPA compilation of sites having suspected or actual releases of hazardous substances to the environment. CERCLIS also contains information on site inspections, preliminary assessments and remediation of hazardous waste sites. These sites are typically reported to EPA by states and municipalities or by third parties pursuant to CERCLA Section 103.
CESQG	Conditionally exempt small quantity generators.
CFR	Code of Federal Regulations
DOT	U.S. Department of Transportation

Description of Selected General Terms and Acronyms (cont.)

Term/Acronym	*Description*
EPA	U.S. Environmental Protection Agency
ERNS	Emergency Response Notification System. An EPA-maintained federal database which stores information on notifications of oil discharges and hazardous substance releases in quantities greater than the applicable reportable quantity under CERCLA. ERNS is a cooperative data-sharing effort between EPA, DOT, and the National Response Center.
ESA	Environmental Site Assessment
FRP	Fiberglass Reinforced Plastic
Hazardous Substance	As defined under CERCLA, this is (A) any substance designated pursuant to section 1321(b)(2)(A) of Title 33, (B) any element, compound, mixture, solution, or substance designated pursuant to section 9602 of this title; (C) any hazardous waste having characteristics identified under or listed pursuant to section 3001 of the Solid Waste Disposal Act (with some exclusions); (D) any toxic pollutant listed under section 1317(a) of Title 33; (E) any hazardous air pollutant listed under section 112 of the Clean Air Act; and (F) any imminently hazardous chemical substance or mixture with respect to which the EPA Administrator has taken action under section 2606 of Title 15. This term does not include petroleum, including crude oil or any fraction thereof which is not otherwise listed as a hazardous substance under subparagraphs (A) through (F) above, and the term include natural gas, or synthetic gas usable for fuel (or mixtures of natural gas and such synthetic gas).
Hazardous Waste	This is defined as having characteristics identified or listed under section 3001 of the Solid Waste Disposal Act (with some exceptions). RCRA, as amended by the Solid Waste Disposal Act of 1980, defines this term as a "solid waste, or combination of solid wastes, which because of its quantity, concentration, or physical, chemical, or infectious characteristics may (A) cause, or significantly contribute to an increase in mortality or an increase in serious irreversible, or incapacitating reversible illness; or (B) pose a substantial present or potential hazard to human health or the environment when improperly treated, stored, transported, or disposed of, or otherwise managed."
ILP	Innocent Landowner/Operator Program
LQG	Large quantity generators.
LUST	Leaking Underground Storage Tank. This is a federal term set forth under RCRA for leaking USTs. Some states also utilize this term.
MCL	Maximum Contaminant Level. This Safe Drinking Water concept (and also used by many states as a ground water cleanup criteria) refers to the limit on drinking water contamination that determines whether a supplier can deliver water from a specific source without treatment.
MSDS	Material Safety Data Sheets. Written/printed forms prepared by chemical manufacturers, importers and employers which identify the physical and chemical traits of hazardous chemicals under OSHA's Hazard Communication Standard.
NESHAP	National Emissions Standard for Hazardous Air Pollutants (Federal Clean Air Act). This part of the Clean Air Act regulates emissions of hazardous air pollutants.
NFRAP	Facilities where there is "No Further Remedial Action Planned," as more particularly described under the Records Review section of this report.
NOV	Notice of Violation. A notice of violation or similar citation issued to an entity, company or individual by a state or federal regulatory body indicating a violation of applicable rule or regulations has been identified.
NPDES	National Pollutant Discharge Elimination System (Clean Water Act). The federal permit system for discharges of polluted water.
NPL	National Priorities List, as more particularly described under the Records Review section of this report.
OSHA	Occupational Safety and Health Administration or Occupational Safety and Health Act
PACM	Presumed Asbestos-Containing Material. A material that is suspected of containing or presumed to contain asbestos but which has not been analyzed to confirm the presence or absence of asbestos.

Description of Selected General Terms and Acronyms (cont.)

Term/Acronym	*Description*
PCB	Polychlorinated Biphenyl. A halogenated organic compound commonly in the form of a viscous liquid or resin, a flowing yellow oil, or a waxy solid. This compound was historically used as dielectric fluid in electrical equipment (such as electrical transformers and capacitors, electrical ballasts, hydraulic and heat transfer fluids), and for numerous heat and fire sensitive applications. PCB was preferred due to its durability, stability (even at high temperatures), good chemical resistance, low volatility, flammability, and conductivity. PCBs, however, do not break down in the environment and are classified by the EPA as a suspected carcinogen. 1978 regulations, under the Toxic Substances Control Act, prohibit manufacturing of PCB-containing equipment; however, some of this equipment may still be in use today.
pCi/l	Pico Curies per Liter of Air. Unit of measurement for Radon and similar radioactive materials.
PLM	Polarized Light Microscopy (see ACM section of the report, if included in the scope of services)
PST	Petroleum Storage Tank. An AST or UST that contains a petroleum product.
Radon	A radioactive gas resulting from radioactive decay of naturally-occurring radioactive materials in rocks and soils containing uranium, granite, shale, phosphate, and pitchblende. Radon concentrations are measured in Pico Curies per Liter of Air. Exposure to elevated levels of radon creates a risk of lung cancer; this risk generally increases as the level of radon and the duration of exposure increases. Outdoors, radon is diluted to such low concentrations that it usually does not present a health concern. However, radon can accumulate in building basements or similar enclosed spaces to levels that can pose a risk to human health. Indoor radon concentrations depend primarily upon the building's construction, design and the concentration of radon in the underlying soil and ground water. The EPA recommended annual average indoor “action level” concentration for residential structures is 4.0 pCi/l.
RCRA	Resource Conservation and Recovery Act. Federal act regulating solid and hazardous wastes from point of generation to time of disposal (‘cradle to grave”). 42 U.S.C. 6901 et seq.
RCRA Generators	The RCRA generators list is part of the RCRIS database maintained by EPA and lists facilities that generate hazardous waste as part of their normal business operations, as more particularly defined under Section 4.1 of this report.
RCRA CORRACTS/TSDs	The USEPA maintains a database of RCRA facilities associated with treatment, storage, and disposal (TSD) of hazardous materials which are undergoing “corrective action”. A “corrective action” order is issued when there is a release of hazardous waste or constituents into the environment from a RCRA facility.
RCRA Non-CORRACTS/TSDs	The RCRA Non-CORRACTS/TSD Database is a compilation by the USEPA of facilities which report storage, transportation, treatment, or disposal of hazardous waste. Unlike the RCRA CORRACTS/TSD database, the RCRA Non-CORRACTS/TSD database does not include RCRA facilities where corrective action is required.
RCRA Violators List	RAATS. RCRA Administrative Actions Taken. RAATS information is now contained in the RCRIS database and includes records of administrative enforcement actions against facilities for noncompliance.
RCRIS	Resource Conservation and Recovery Information System, as defined in the Records Review section of this report.
REC	Recognized Environmental Conditions” are defined by ASTM E1527-05 as “the presence or likely presence of any hazardous substances or petroleum products on a property under conditions that indicate an existing release, a past release, or a material threat of release of any hazardous substances or petroleum products into structures on the property or into the ground, ground water, or surface water of the property. The term includes hazardous substances or petroleum products even under conditions of compliance with laws. The term is not intended to include *de minimis* conditions that generally do not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies.”
SCL	State “CERCLIS” List (see SPL /State Priority List, below).

Description of Selected General Terms and Acronyms (cont.)

Term/Acronym	*Description*
SPCC	Spill Prevention, Control and Countermeasures. SPCC plans are required under federal law (Clean Water Act and Oil Pollution Act) for any facility storing petroleum in tanks and/or containers of 55-gallons or more that when taken in aggregate exceed 1,320 gallons. SPCC plans are also required for facilities with underground petroleum storage tanks with capacities of over 42,000 gallons. Many states have similar spill prevention programs, which may have additional requirements.
SPL	State Priority List. State list of confirmed sites having contamination in which the state is actively involved in clean up activities or is actively pursuing potentially responsible parties for clean up. Sometimes referred to as a State "CERCLIS" List.
SQG	Small quantity generator.
SWF	Solid Waste Facility
TPH	Total Petroleum Hydrocarbons
TRI	Toxic Release Inventory. Routine EPA report on releases of toxic chemicals to the environment based upon information submitted by entities subject to reporting under the Emergency Planning and Community Right to Know Act.
TSCA	Toxic Substances Control Act. A federal law regulating manufacture, import, processing and distribution of chemical substances not specifically regulated by other federal laws (such as asbestos, PCBs, lead-based paint and radon). 15 U.S.C 2601 et seq.
USACE	United States Army Corps of Engineers
USC	United States Code
USGS	United States Geological Survey
USNRCS	United States Department of Agriculture-Natural Resource Conservation Service
UST	Underground Storage Tank. Most federal and state regulations, as well as ASTM E1527-05, define this as any tank, incl., underground piping connected to the tank, that is or has been used to contain hazardous substances or petroleum products and the volume of which is 10% or more beneath the surface of the ground (i.e., buried).
VCP	Voluntary Cleanup Program
VOC	Volatile Organic Compound
Wetlands	Areas that are typically saturated with surface or ground water that creates an environment supportive of wetland vegetation (i.e., swamps, marshes, bogs). The Corps of Engineers Wetlands Delineation Manual (Technical Report Y-87-1) defines wetlands as areas inundated or saturated by surface or ground water at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions. For an area to be considered a jurisdictional wetland, it must meet the following criteria: more than 50 percent of the dominant plant species must be categorized as Obligate, Facultative Wetland, or Facultative on lists of plant species that occur in wetlands; the soil must be hydric; and, wetland hydrology must be present. The federal Clean Water Act which regulates "waters of the US," also regulates wetlands, a program jointly administered by the USACE and the EPA. Waters of the U.S. are defined as: (1) waters used in interstate or foreign commerce, including all waters subject to the ebb and flow of tides; (2) all interstate waters including interstate wetlands; (3) all other waters such as intrastate lakes, rivers, streams (including intermittent streams), mudflats, sandflats, wetlands, sloughs, prairie potholes, wet meadows, playa lakes, or natural ponds, etc., which the use, degradation, or destruction could affect interstate/ foreign commerce; (4) all impoundments of waters otherwise defined as waters of the U. S., (5) tributaries of waters identified in 1 through 4 above; (6) the territorial seas; and (7) wetlands adjacent to waters identified in 1 through 6 above. Only the USACE has the authority to make a final wetlands jurisdictional determination.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-05) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal CERCLIS NFRAP site List

CERC-NFRAP: Archived sites are sites that have been removed and archived from the inventory of CERCLIS

sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

A review of the CERC-NFRAP list, as provided by EDR, and dated 04/26/2013 has revealed that there are 2 CERC-NFRAP sites within approximately 0.5 miles of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page
WILLIAMS PIPE LINE CO - CORALV	***912 1ST AVE***	***ESE 0 - 1/8 (0.037 mi.)***	***A2***	***7***

Federal RCRA generators list

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 06/18/2013 has revealed that there is 1 RCRA-SQG site within approximately 0.25 miles of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page
WILLIAMS PIPE LINE CO - CORALV	***912 1ST AVE***	***ESE 0 - 1/8 (0.037 mi.)***	***A2***	***7***

RCRA-CESQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-CESQG list, as provided by EDR, and dated 06/18/2013 has revealed that there are 4 RCRA-CESQG sites within approximately 0.25 miles of the target property.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: The EPA's listing of Brownfields properties from the Cleanups in My Community program, which provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

A review of the US BROWNFIELDS list, as provided by EDR, and dated 06/24/2013 has revealed that there are 33 US BROWNFIELDS sites within approximately 0.5 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 06/18/2013 has revealed that there are 5 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR US Hist Auto Stat: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR US Hist Auto Stat list, as provided by EDR, has revealed that there are 4 EDR US Hist Auto Stat sites within approximately 0.25 miles of the target property.

Hazardous Waste Summary:
Waste code: D001
Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

Waste code: D009
Waste name: MERCURY

Waste code: D018
Waste name: BENZENE

Waste code: D035
Waste name: METHYL ETHYL KETONE

Waste code: F005
Waste name: THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NON-HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

IDNR-EFD (Iowa Department Of Natural Resources - Emission Factor Documentation) provides information about existing emission factors

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

VISTA STORES #1019 (Continued) **U001723684**

dated 01/29/04. CADR due 05/23/04. kw01/23/04: Sent APO letters. kw03/18/04: Rec'd call from Ken Cathlino (319-627-7460). May purchase property and put a $1Mil food service bldg on site. Referred him to MWH for inquiry into price regarding cleanup. kw05/25/04: REC'D FROM MWH TIER 3 WORK PLAN. bsg06/10/04: Sent Tier 3 accept letter. Obtain & compare DWW & geologic data. Obtain IC. Tier 3 Report due 08/15/04. kw07/06/04: REC'D FROM MWH COPY OF WATER WELL INFORMATION REQUEST LETTER. Letter is requesting access to DWW from well owner. Bsg07/26/04: Question from CGWP. Does the DWW have to be sampled for BTEX in the Tier 3 investigation? Yes. Tier 3 attempting to prove DWW will not be impacted by BTEX, so seems reasonable to sample for BTEX. --kw08/06/04: Rec'd call from Rob Malcomsen w/ MWH. Detected .5" of FP in MW2. --kw08/06/04: Sent FPAR letter. CGWP must determine if FP affects T2 evaluation. FPAR due 09/23/04. GC dated 8/10. --kw08/09/04: Rec'd call from Rob Malcomsen w/ MWH. Detected one half foot of FP in MW3. --kw09/10/04: E-mail from CGWP. Tier 3 Report by 9/24. Will not sample for Tritium as requested. Rev T2 also due 9/24. --kw09/24/04: REC'D TIER 3 REPORT AND REVISED TIER 2 SCR AS A RESULT OF FP DISCOVERY. REC'D T2 SOFTWARE.-kw09/24/04: Rec'd e-mail & fax from Cynthia Quast w/ Howard R Green. City installing a PWL in 1st Avenue. GW is greater than 20 feet bgs so should not affect GW or SL to PWL pathways. Appears it will be installed outside of Soil to PWL RID plume. --kw10/20/04: Sent Tier 3, Rev Tier 2, & FPRAR review letter. Rejected Tier 3. Did not provide good information to reclassify GW to DWW pathway. IC for SL to PGWS pathway not complete. Identified 1 major deficiency w/ Rev Tier 2. Questioned no risk assigned to GVES pathway. Revised Tier 3 due 12/22/04. GC dated 10/25. --kw10/28/04: Receiving numerous calls on this site. In order to keep everyone straight: Mike Pugh is attorney from IA City representing potential buyer, Keith Wilson from Prudential Partners represents loan agency for potential buyer, Steve Ballard is attorney from IA City representing current property owner Mr. Jason Shannon. --kw12/17/04: REC'D ABANDONED WATER WELL PLUGGING RECORD for MW-9 due to construction. Bsg02/23/05: REC'D ABANDONED WATER WELL PLUGGING RECORD FOR MW-6. Bsg04/22/05: Meeting w/ Coastal, MWH, & DNR. Will conduct HVE pilot test by 5/30. If favorable, will conduct quarterly HVE events in 8/05, 11/05, and 05/06. Will submit 1st Rem SMR by 7/30/05. Reclass SMR submitted by 9/30/06. --kw07/06/05: Memorandum summarizing 4/22 meeting sent to all parties. HVE events to be conducted in 8/05, 11/05, & 2/06. First Rem SMR due 7/30/05. Reclass SMR due 9/30/06. --kw07/29/05: REC'D TIER 2 SMR SOFTWARE & MTBE PER E-MAIL. Bsg07/29/05: REC'D REMEDIATION SMR. EXEMPT GRANULAR BEDROCK, MOBILE DUAL PHASE. TIER 2 REVISIONS. bsg08/17/05: REC'D FROM MWH UPDATE OF MOBILE DUAL-PHASE EXTRACTION ACTIVITIES. Bsg10/19/05: REC'D FROM MWH LETTER RE: WATER WELL ORDINANCE. Bsg02/13/06: Copied on e-mail from DW to MWH. DW approved IC prohibiting the installation of DWWs and NDWWs. --kw03/30/06: REC'D REMEDIATION SMR. HR: REMEDIATION. (NO TIER SMR SOFTWARE DISK REC'D). E-MAILED ROB MALCOMSON &

Date form received by agency: 07/12/1994
Facility name: CANTEBURY AMOCO SERVICE
Classification: Conditionally Exempt Small Quantity Generator

Hazardous Waste Summary:
Waste code: D000
Waste name: Not Defined

Waste code: UOIL
Waste name: UOIL

Waste code: D000
Waste name: Not Defined

Waste code: D001
Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE

CANTEBURY AMOCO SERVICE (Continued) **1004690542**

MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

Waste code: D002
Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

Waste code: D008
Waste name: LEAD

Waste code: D018
Waste name: BENZENE

Violation Status: No violations found

Evaluation Action Summary:
Evaluation date: 07/12/1994

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Hazardous Waste Summary:

CLEAR CO (Continued) **1000906819**

Waste code: D000
Waste name: Not Defined

Waste code: D001
Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

Waste code: F003
Waste name: THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NON-HALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NON-HALOGENATED SOLVENTS, AND, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005, AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste code: F005
Waste name: THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NON-HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Hazardous Waste Summary:
Waste code: D001
Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

Waste code: F003
Waste name: THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NON-HALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NON-HALOGENATED SOLVENTS, AND, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005, AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT

MONTGOMERY PAINTING (Continued) **1001459885**

MIXTURES.

Waste code: F005
Waste name: THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NON-HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Recipient name:	Coralville, City of
Grant type:	Assessment
Property name:	GRYSSON OIL
Property #:	1005101005
Parcel size:	.45
Property Description:	commercial fueling station The site was developed as a commercial fueling station in 1978 with seven fueling pumps at three pump islands. A building, structure, or impervious surface occupied approximately 30% of the site and 70% of the site is covered by grass or gravel. The site is zoned commercial. The former owner was Mr. John Gilroy. The fueling pumps, USTs, and pump islands have all been removed.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 04/26/2013

Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Federal Delisted NPL site list

DELISTED NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Federal CERCLIS list

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Data Release Frequency: Varies

Federal CERCLIS NFRAP site List

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

State- and tribal - equivalent CERCLIS

SHWS: Registry of Hazardous Waste or Hazardous Substance Disposal Sites

State Hazardous Waste Sites. State hazardous waste site records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. Available information varies by state.

Date of Government Version: 12/31/2012

State and tribal registered storage tank lists

UST: Underground Storage Tank Data
Registered Underground Storage Tanks. UST's are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA) and must be registered with the state department responsible for administering the UST program. Available information varies by state program.

Date of Government Version: 07/01/2013
Date Data Arrived at EDR: 07/10/2013
Date Made Active in Reports: 08/16/2013
Number of Days to Update: 37
Source: Department of Natural Resources
Telephone: 515-281-6001
Last EDR Contact: 06/10/2013
Next Scheduled EDR Contact: 09/23/2013
Data Release Frequency: Quarterly

AST: Aboveground Storage Tank Sites
Bulk fuel facilities, commercial fuel operations, private farm sites, and any other storage facility that meets the Department of Public Safety?s registration criteria. They register any class I, II or III petroleum product (gas, diesel and oil) above 1,100 gallons.

Date of Government Version: 04/08/2013
Date Data Arrived at EDR: 04/09/2013
Date Made Active in Reports: 05/20/2013
Number of Days to Update: 41

Last EDR Contact: 07/18/2013
Next Scheduled EDR Contact: 10/21/2013
Data Release Frequency: Varies

INDIAN UST R9: Underground Storage Tanks on Indian Land

The Indian Underground Storage Tank (UST) database provides information about underground storage tanks on Indian land in EPA Region 9 (Arizona, California, Hawaii, Nevada, the Pacific Islands, and Tribal Nations).

Date of Government Version: 02/21/2013
Date Data Arrived at EDR: 02/26/2013
Date Made Active in Reports: 04/12/2013
Number of Days to Update: 45

Source: EPA Region 9
Telephone: 415-972-3368
Last EDR Contact: 07/24/2013
Next Scheduled EDR Contact: 11/11/2013
Data Release Frequency: Quarterly

INDIAN UST R8: Underground Storage Tanks on Indian Land

The Indian Underground Storage Tank (UST) database provides information about underground storage tanks on Indian land in EPA Region 8 (Colorado, Montana, North Dakota, South Dakota, Utah, Wyoming and 27 Tribal Nations).

Date of Government Version: 08/27/2012
Date Data Arrived at EDR: 08/28/2012
Date Made Active in Reports: 10/16/2012
Number of Days to Update: 49

Source: EPA Region 8
Telephone: 303-312-6137
Last EDR Contact: 07/24/2013
Next Scheduled EDR Contact: 11/11/2013
Data Release Frequency: Quarterly

INDIAN UST R1: Underground Storage Tanks on Indian Land

The Indian Underground Storage Tank (UST) database provides information about underground storage tanks on Indian land in EPA Region 1 (Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont and ten Tribal Nations).

Date of Government Version: 09/28/2012
Date Data Arrived at EDR: 11/07/2012
Date Made Active in Reports: 04/12/2013
Number of Days to Update: 156

Source: EPA, Region 1
Telephone: 617-918-1313
Last EDR Contact: 08/02/2013
Next Scheduled EDR Contact: 11/11/2013
Data Release Frequency: Varies

INDIAN UST R4: Underground Storage Tanks on Indian Land

The Indian Underground Storage Tank (UST) database provides information about underground storage tanks on Indian land in EPA Region 4 (Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee and Tribal Nations)

Date of Government Version: 02/06/2013
Date Data Arrived at EDR: 02/08/2013
Date Made Active in Reports: 04/12/2013
Number of Days to Update: 63

Last EDR Contact: 08/08/2013
Next Scheduled EDR Contact: 11/04/2013
Data Release Frequency: Quarterly

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites
Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

Date of Government Version: 06/24/2013

Local Lists of Hazardous waste / Contaminated Sites

US CDL: Clandestine Drug Labs
A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Date of Government Version: 03/04/2013

Other Ascertainable Records

RCRA NonGen / NLR: RCRA - Non Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

HIST FTTS INSP: FIFRA/TSCA Tracking System Inspection & Enforcement Case Listing

A complete inspection and enforcement case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

SSTS: Section 7 Tracking Systems

Section 7 of the Federal Insecticide, Fungicide and Rodenticide Act, as amended (92 Stat. 829) requires all registered pesticide-producing establishments to submit a report to the Environmental Protection Agency by March 1st each year. Each establishment must report the types and amounts of pesticides, active ingredients and devices being produced, and those having been produced and sold or distributed in the past year.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR US Hist Auto Stat: EDR Exclusive Historic Gas Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

Next Scheduled EDR Contact: 09/30/2013
Data Release Frequency: Annually

Oil/Gas Pipelines: This data was obtained by EDR from the USGS in 1994. It is referred to by USGS as GeoData Digital Line Graphs from 1:100,000-Scale Maps. It was extracted from the transportation category including some oil, but primarily gas pipelines.

Electric Power Transmission Line Data

Source: Rextag Strategies Corp.
Telephone: (281) 769-2247
U.S. Electric Transmission and Power Plants Systems Digital GIS Data

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000
A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes
Source: National Institutes of Health
Telephone: 301-594-6248
Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics' primary database on private school locations in the United States.

Daycare Centers: Child Care Facilities
Source: Department of Human Services
Telephone: 515-281-4357

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2011 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

Scanned Digital USGS 7.5' Topographic Map (DRG)
Source: United States Geologic Survey
A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

CORALVILLE, IA 52241

TARGET PROPERTY COORDINATES

Latitude (North):	41.682 - 41° 40' 55.20''
Longitude (West):	91.5664 - 91° 33' 59.04''
Universal Tranverse Mercator:	Zone 15
UTM X (Meters):	619321.4
UTM Y (Meters):	4615250.0
Elevation:	699 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	41091-F5 IOWA CITY WEST, IA
Most Recent Revision:	1994

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principal investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

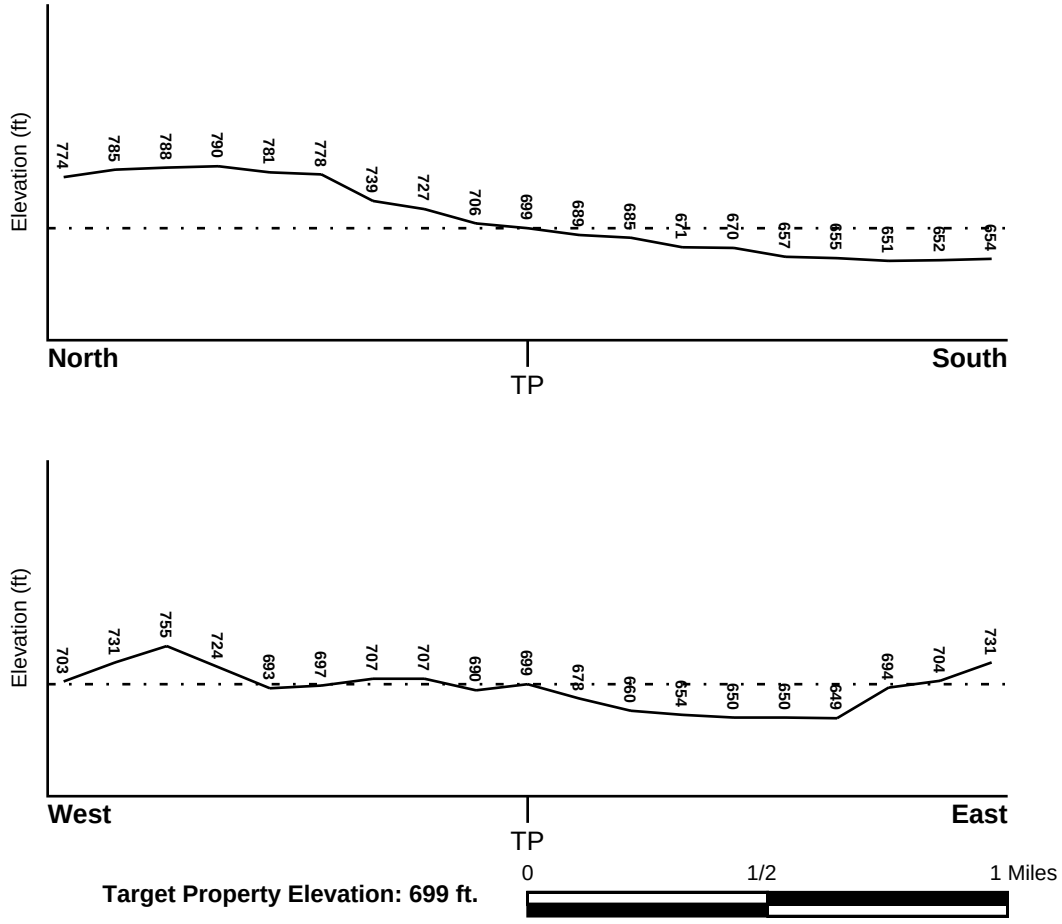
TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SE

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES



Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Target Property County	FEMA Flood Electronic Data
JOHNSON, IA	YES - refer to the Overview Map and Detail Map

Flood Plain Panel at Target Property: 19103C - FEMA DFIRM Flood data

Additional Panels in search area: Not Reported

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
IOWA CITY WEST	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID	LOCATION FROM TP	GENERAL DIRECTION GROUNDWATER FLOW
Not Reported		

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: Fayette

Soil Surface Texture: silt loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information

	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	9 inches	silt loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 14 Min: 4	Max: 7.8 Min: 5.1
2	9 inches	46 inches	silty clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 14 Min: 4	Max: 7.8 Min: 5.1
3	46 inches	59 inches	silt loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 14 Min: 4	Max: 7.8 Min: 5.1

Soil Map ID: 2

Soil Component Name: Fayette

Soil Surface Texture: silt loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information

	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	9 inches	silt loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 14 Min: 4	Max: 7.8 Min: 5.1
2	9 inches	46 inches	silty clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 14 Min: 4	Max: 7.8 Min: 5.1
3	46 inches	59 inches	silt loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 14 Min: 4	Max: 7.8 Min: 5.1

Soil Map ID: 3

Soil Component Name: Nodaway

Soil Surface Texture: silt loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Moderately well drained

Hydric Status: Partially hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 30 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Scanned Digital USGS 7.5' Topographic Map (DRG)
Source: United States Geologic Survey
A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

HYDROLOGIC INFORMATION

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2011 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Services
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Services (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Services, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

All Known Water Wells in the State of Iowa
Source: Department of Natural Resources
Telephone: 319-335-1353
Well types included are agricultural drainage, permitted private, public, registered abandoned, SDWIS public, water use permit sites, wells registered for testing.

Permitted Private Wells
Source: Department of Natural Resources
Telephone: 319-335-1353
This is a point coverage for private wells for which permits have been issued since 1987. Most permits were recorded in counties which are in the state drinking water program.

Private Well Tracking System Wells
Source: Department of Natural Resources
Telephone: 319-335-1353

OTHER STATE DATABASE INFORMATION

RADON

State Database: IA Radon
Source: Department of Public Health
Telephone: 515-281-4340
Radon Test Results

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

EDR Historical Topographic Map Report

Environmental Data Resources, Inc.s (EDR) Historical Topographic Map Report is designed to assist professionals in evaluating potential liability on a target property resulting from past activities. EDRs Historical Topographic Map Report includes a search of a collection of public and private color historical topographic maps, dating back to the early 1900s.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

APPENDIX F
CREDENTIALS

DANIEL M. GREEN
SR. ENVIRONMENTAL SCIENTIST

PROFESSIONAL EXPERIENCE

Mr. Green is a Sr. Environmental Scientist in Terracon's Cedar Rapids, Iowa office. He is involved in all aspects of Phase I environmental site assessments (ESAs). He also conducts asbestos inspections, lead-based paint inspections, abatement oversight and air monitoring, indoor air quality (IAQ) and employee exposure monitoring, Geoprobe® investigations, and soil and groundwater sampling.

PROJECT EXPERIENCE

Environmental Site Assessments

Mr. Green has performed dozens of Phase I Environmental Site Assessments (ESAs) including all field work, final report preperation, and general project management duties for a variety of industrial and commercial clients including:

- Iowa Renewable Energy, biodiesel plant, Washington, IA (2010)
- Santa Fe Train Depot, Ft. Madison, IA (2010)
- Former Paintcraft Site, former paint manufacturing facility, Galesburg, Il (2010)
- Midland Forge, former 120,000 SF hammer forging operation, Cedar Rapids, IA (2011)
- Vector Construction, Cedar Rapids, IA (2010)
- Randy's Carpets and Interiors, Cedar Rapids, IA (2010)
- Brookview Senior Living Center, Cedar Rapids, IA (2010)
- Mobile home park, Mechanicsville, IA (2010)
- Cargill Meat Solutions (Former John Morrell Packing House), Ottumwa, IA (2011)
- ADM Corn Processing, former residential properties, Cedar Rapids, IA (2011)
- Proposed Linn Area Credit Union, former car wash, Marion, IA (2011)
- Proposed CVS Pharmacy, former Hardee's restaurant, Cedar Rapids, IA (2011)
- Marion Shopping Center, approximately 16 acre multitenant commercial shopping center, Marion, IA (2011)
- Former Auto Repair, Marengo, IA (2011)
- Iowa River Landing, Coralville, IA. Brownfields Assessments for 9 commercial/industrial properties including the future location of a Von Maur retail store (2012).
- Frew Nations Group, 63 acre Westdale Mall site, Cedar Rapids, IA (2012)
- City of Cedar Rapids, Propose Fire Station #3, vacant land, Cedar Rapids, IA (2012)
- Ryan Companies US, Inc., former Science Station/IMAX theatre, Cedar Rapids, IA (2012).

Asbestos/LBP and Other Regulated Materials

- Performed abatement oversight and air monitoring for hazardous materials abatement at Time Check Recreation Center in Cedar Rapids, Iowa (2011).
- Preformed asbestos/LBP and other regulated materials surveys including field work and assisting in final report preparation of the following projects (with the exception of Midland Forge, all of the listed

Education
Bachelor of Science, Geoscience, University of Iowa, 2007

Certifications/Licenses
Licensed Asbestos Inspector, Iowa (10-6599I)

Licensed Lead Inspector/Risk Assessor, Iowa (IA2011-INSP-1966)

Asbestos Air Monitoring, NIOSH 582 E

Iowa Certified Groundwater Professional (CGP# 2092)

40 hour OSHA HAZWOPER

Adult First Aid / CPR

Work History
Terracon Consultants Inc., Cedar Rapids, Iowa, Environmental Geologist, 2009-present

Aquadrill Inc, Swisher, Iowa

Driller Helper, 2007-2009

buildings were impacted by the flood of 2008):

- CSPS Building (Legion Arts), Cedar Rapids, Iowa (2010)
- Orchestra Iowa, Cedar Rapids, Iowa (2010).
- Former Central Fire Station, Cedar Rapids, Iowa (2011)
- City Services Building, Former Federal Courthouse, Cedar Rapids, Iowa (2011)
- Rock Island Community Health Care, Rock Island, Illinois (2011)
- Midland Forge, Cedar Rapids, Iowa (2011)
- Public Works, Cedar Rapids, Iowa (2011)
- Time Check Recreation Center, Cedar Rapids, Iowa (2011)
- City of Cedar Rapids Bus Garage, Cedar Rapids, Iowa (2011)

Regulatory Compliance

- Prepared 2009 Tier II assessment for Diamond V Mills, Cedar Rapids, Iowa
- Prepared 2010 Tier II assessment for Public Works Facility, Cedar Rapids, Iowa

Additional Work

- Jefferson City, MO—Site Characterization for petroleum contamination at location of future U. S. Court House. Preformed soil and groundwater sampling in accordance with MDNR LUST guidelines, as well as field interpretation of analytical data. (2010)
- Medford, OK—Preformed field activities, and supervised installation of subsidence monuments for ONEOK hydrocarbon refinery. (2010)

KIRK R. JOHNSON, PG, CGP
ENVIRONMENTAL PROJECT MANAGER

PROFESSIONAL EXPERIENCE

Mr. Johnson is an Environmental Project Manager with Terracon's Cedar Rapids, Iowa office. He has 25 years experience in emergency response, environmental compliance, and remediation. He has held positions in government environmental programs as well as consulting for state government and private industry. Mr. Johnson has prepared Spill Prevention, Control and Countermeasure Plans for a number of bulk fuel storage and power generation facilities, as well as Stormwater Pollution Prevention Plans for landfills, sewage treatment plants, and power generation facilities. Mr. Johnson also has extensive experience in soil and groundwater remediation for private and public clients.

PROJECT EXPERIENCE

Environmental Site Assessments

Served as project manager for the following Phase II Environmental Site Assessments:

- City of Cedar Rapids Public Works Facility
- City of Cedar Rapids Bus Garage
- Proposed St. Luke's Hospital Parking Lot
- City of Cedar Rapids Flood Buyout Program
- Cargill Hazardous, Toxic and Radioactive Waste Assessment
- ITC Holdings Washington Substation Taps
- Swiss Valley Farms Cedar Rapids Flood Property
- Linn County Juvenile Justice Center
- City of Cedar Rapids Central Fire Station

Remediation

Served as project manager for soil and groundwater remediation projects:

- Iowa National Guard Armory Propylene Glycol Spill Response
- Hawk-I Truck Stop Sodium Persulfate Injection Project
- Hawk-I Truck Stop Uncontrolled Fill Removal
- Legion Arts Underground Storage Tank Removal
- Centerfire 66 and Country Lane Conoco, Pinedale, Wyoming
- Burns Brothers Truck Stop, Ft. Bridger, Wyoming
- University of Iowa Hospitals and Clinics Ambulatory Care Facility
- Reynold's Petroleum and Aspen Service, Jackson, Wyoming

Served as project manager for soil and groundwater remediation projects for the National Park Service and U.S. Fish and Wildlife Service, including:

- Moose Maintenance Facility, Moose, Wyoming
- Flagg Ranch Village, Flagg Ranch, Wyoming
- Signal Mountain Lodge, Signal Mountain, Wyoming
- Seedskadee National Wildlife Refuge, Farson, Wyoming

Education
Bachelor of Arts, University of South Florida, 1980

Registrations
Professional Geologist: Kansas, Nebraska, Wyoming and Florida

Certified Groundwater Professional: Iowa

Certifications
OSHA 29CFR1910.120 40-Hour HAZWOPER

Work History
Terracon Consultants, Inc., Environmental Project Manager, 2010-Present

MILCO Environmental Services, Inc., Project Manager, 2009-2010

GeoScience & Engineering, Inc., Senior Scientist, 1994-2009

Environmental Consulting & Technology, Inc., Senior Scientist, 1989-1994

Florida Department of Environmental Protection, Environmental Supervisor, 1986-1989

Brownfields Projects

Served as project manager for the following Brownfields projects:

- Pathry, Inc. Phase II ESA
- CRANDIC Phase II ESA
- Oakdale Boulevard Extension Phase II ESA
- Iowa River Landing Media Management Plan for Soil and Groundwater
- Backpocket Brewery Phase II ESA

Spill Prevention, Control and Countermeasure Plans

Served as project manager including facility inspections, containment design, plan preparation and contingency planning for the following Spill Prevention, Control and Countermeasure Plans:

- Western Cooperative, Harrison, Nebraska
- Sidney Power Plant, Sidney, Nebraska
- Sapp Bros. Petroleum, Inc., Imperial, Nebraska
- Western Cooperative, Scotts Bluff, Nebraska
- Benkelman Power Plant, Benkelman, Nebraska

Stormwater Pollution Prevention Plans

Served as project manager including facility inspections, plan preparation and contingency planning for the following SWPPPs:

- Brewster Field Airport, Holdrege, Nebraska
- Buffalo County Redi-Mix, Gibbon, Nebraska
- West Pharmaceuticals, Kearney, Nebraska
- Kearney Regional Landfill, Kearney, Nebraska
- Kearney Area Recycling Center, Kearney, Nebraska
